

Biography

Club of Jacks, aka Mike and Max, have been bubbling away on the scene for a long time, both as DJs, promoters and producers.

So what happened when these two finally got together to produce the EP they'd always talked about making? Well, apart from a lot of intense late night chat about hi-hat patterns, analog gear and rare B-sides, the result of this meeting of hearts and minds is Club of Jacks

After building a solid underground following over a number of years their debut vinyl release on their own COJ Records label (Feb '19) was number 1 on both the Juno Garage and Deep House bestseller charts and quickly sold out. They have also enjoyed international club and radio support from the likes of Todd Edwards, Golf Clap, Gene Farris, Ashley Beedle and Gorgon City among others. Following this success, more EPs and musical collaborations are imminent.

Their regular London based *Catch the Feeling* parties (where they are resident DJs) continue to showcase the best underground artists on the scene, with guest sets from people such as Jeremy Sylvester, Mike Millrain, Smokey Bubblin B and Danny J Lewis. They always attract a crowd looking for that authentic House & Garage sound and old school party spirit.

Club of Jacks' have also had releases on a number of underground labels, including Blockhead, Soul Revolution, Urban Dubz and Pogo House. Their EP *If You Feel Like* on Plastik People Recordings reached #4 on the Traxsource Deep House Chart (Feb '18).

Their productions and remixes are a modern take on the classic sound of House & Garage, combining speaker-shaking basslines with timeless hooks and an infectious groove. Made to be played loud, wherever you like to jack your body!

As DJs with a lifetime of combined experience behind the decks, they know how to move a crowd, playing back to back across the spectrum of House, Garage and beyond. Both big record collectors, over the years they have DJ'd together regularly and rocked countless parties.

When Club of Jacks play out expect to hear the best in underground House and Garage, alongside exclusive dubplates, special remixes, rarities and classics - played with an energetic, party rocking spirit.
